

SUPERMODEL
ASSASSIN

Laurie is a successful model and skilled assassin, but she wants to keep her younger sister Dani out of the dangerous world of contract killing.

When criminal Christophe demands Laurie to steal a diamond necklace she'll be modelling in exchange for Dani's safety, Laurie reluctantly agrees. But she is then abducted and the necklace is stolen by a diamond thief named Julian.

They soon realize that they are being pursued by three different factions who all want the necklace. Laurie and Julian team up and fight their way through a deadly motorcycle gang and Chinese gangsters to recover the necklace.

They deliver it to Christophe, but he reveals it was a fake all along, and that he used the heist to force Laurie to carry out multiple executions on his rivals.
